

Adventure Learning @ Coeur d'Alene 2017

An Exciting Professional Development Opportunity for 6th–12th Grade Science Teachers

◀◀ Join Us! June 19—23 ▶▶

Are you interested in taking an interdisciplinary approach to teaching students about local environmental issues? We are seeking middle and high school teachers to join us as either on-site or online adventurers for Adventure Learning @ Coeur d'Alene 2016. Learn the various ways we benefit from having healthy, functioning ecosystems, and the challenges we face as a state in trying to manage our resources to maintain balance, especially in the face of growing urbanization.

The Adventure Learning workshop focus on three learning objectives:

- ▶▶▶ **Explore** the Coeur d'Alene watershed and investigate how interdisciplinary approaches are taken to study complex social-ecological processes
- ▶▶▶ **Discover** technology that can be used to collect data and share your experiences with other educators and your students
- ▶▶▶ **Collaborate** with fellow adventurers to develop a personalized plan for implementing Adventure Learning workshop materials and technology into your classroom

Sign up now!!! www.idhoadventure.org

Applications due April 20

Adventure Learning @ Coeur d'Alene 2017

>>> On-site Adventurers: <<<

Join us for a week-long adventure exploring the Coeur d'Alene watershed! We will investigate local water issues while biking, hiking, camping (one night), floating, snorkeling, and kayaking. Along the way, we will meet community experts, learn new technologies, and develop place-based water science lessons to use in your classroom.

You will receive:

- > Stipend of \$650 plus 3 free Continuing Education Credits from the University of Idaho
 - > Don't need the credits? Earn a stipend of \$800 instead
- > Lunches, transportation, and all workshop materials provided
- > Personalized watershed lesson plans that align with state standards
- > Science equipment for your classroom
- > An interdisciplinary experience to share with your students

>>> Online Adventurers: <<<

Follow Adventure Learning online by reading and commenting on the Adventure Learning Blog! Share your guiding questions, observations, and classroom ideas with on-site adventurers. This option is open to anyone—educators, school administrators, friends, etc.

You will receive:

- > Stipend of \$150 plus 1 free Continuing Education Credit from the University of Idaho
 - > Don't need the credits? Earn a stipend of \$200 instead
- > Place-based watershed lesson plans for your classroom
